Barras de ejercicios de 34 mm de diámetro y 3,4 mm de espesor. Con recubrimiento plastificado copolímero de 300 micras, para garantizar aislamiento térmico y adherencia

1

2

3

■ Abrazaderas exclusivas de aluminio. Fundidas en aluminio L2520 en coquilla. Recubiertas con pintura en polvo de poliéster

■ Columnas de acero ST34, con un diámetro de 100mm y 3mm de espesor. Galvanizadas por inmersión, con grosor de 70 micras. También existe la versión en acero inoxidable con las mismas medidas

Todos los artículos disponen de certificado con la norma UNE EN 16630: 2015

Cada actividad dispone de un código QR con videos explicativos de cómo realizar correctamente los ejercicios

## Street workout

La extrema durabilidad de los productos MEIN permite un uso continuado, exhaustivo con nulo desgaste en exterior
